

FARM FOODS

AUSTRALIA

EST. 1995

About

Farm Foods is a medium sized food manufacturer in the Australian meat industry with a 25-year history. Our prime manufacturing capabilities is value added meat products covering all species (Beef, Chicken, Lamb and Pork) as well as plant-based meat alternative products. The business manufacturers Private Label lines for supermarket retailers, co manufacturers other suppliers' lines and also has its own proprietary brands within set regions and markets.

Farm Foods has excellent knowledge and skill in meat processing. It further has a high level of skill and knowledge with plant-based meat alternatives, having been the first business in Australia to launch a plant based, meat alternative burger in retail supermarkets.

We believe our customers choose to do business with us because we:

- Innovate and respond to customer needs
- Deliver on what we say
- Are responsive to the evolving market
- Ability to scope the world for ingredients
- Have the ability to develop unique products
- Strive to improve distribution methods and gain efficiency

Our Next Gen Plant Based Burger for Australian Retailers

Company Objectives

- Manufacture and supply the retail supermarket trade with high-quality, value-added meat and meat alternative products
- Prioritise teamwork, quality and safety
- To co manufacture lines where applicable to maximise factory through put and overhead recovery
- To innovate and lead in product design, recipe, flavour, and pack format.
- To remain strategic, clearly identifying existing and potential new customers and markets including export.

Four n Twenty collaboration
